CENTRIFUGAL CAST HIGH ALLOY HH & HK HEAT RESISTANT PRODUCTS

intMPE is an ISO9002:2000 certified manufacturer of centrifugally cast high-alloy heat resistant tubes and castings.

MAJOR MARKETS & TYPICAL PRODUCTS

1. PETROCHEMICAL

Tubes ,fittings, coils ,manifolds and various other items, assembled or not, used in cracking furnaces and reforming furnaces.

2. METALLURGICAL

Rolls ,radiant tubes and various static castings for CAL(Continuous annealing line)/CGL(Continuous galvanizing line).

3. GLASS

Various rolls used in float glass annealing Lehr and cast glass production .

4. Commercial Heat treating Industry

Various parts made by investment casting and sand casting method, such as Trays & Grids ,Baskets , Chain Guides ,Fans ,Cast Link Belts,etc.,

CAPABILITIES

Centrifugal Casting (Dia.from 40 to 1600mm);Investment Casting; Static Casting(resin-bonded and greensand);Welding& Fabricating ; Machining, Grinding &Polishing;Destructive & Non-destructive tests.

QUALITY ASSURANCE

1. Advanced facilities, experienced workers who strictly carry out and document ISO9002 procedures.

2. Rigorous quality control systems such as; Chemical analysis, Mechanical properties, X-ray, Eddy current test, Ultrasonic test, Dye Penetrant Inspection, Micrography, Pressure tests etc.,

3. Detailed traceable material & inspection data sheets for every item according to ISO-9002 Standards.
